

"Daikin EMURA was designed to perfectly balance technological leadership and the beauty of aerodynamics."

— Alexander Schlag,
Managing Director at
yellow design gmbh

Form. Function. Redesigned.

Designer Comfort

The next generation of home air conditioning is here, offering smart technology within a sleek, curved silhouette. Daikin EMURA air conditioners are designed to satisfy a uniquely "Designer" sense of style.

Offering a sophisticated solution for contemporary interiors, the new Daikin EMURA combines form and functionality to create an icon of contemporary climate control. Available in silver or pure matte white, Daikin EMURA makes a modern design statement on any wall.

Inside the understated exterior is a highly intelligent system, which can be controlled remotely via the Daikin Comfort App even away from the home.

From anywhere in the world. Or your living room.

It can happen to anyone. You forgot to change the temperature of your heat pump system or air conditioner before leaving the house, or you will be delayed returning home and wish to avoid needlessly heating or cooling your home. What in the past would have resulted in wasted energy is no longer a problem. With the new Daikin Comfort Control App, you are always in control. You can use your tablet or smart-phone to access your Daikin system via the internet.

Architecture and
Design.

Features

- » Stylish finish in silver, or pure matte white
- » Compatible with MXS, RMXS and Daikin AURORA™ Multi-Zone Systems
- » High efficiencies with up to 18.9 SEER and up to 12.5 HSPF
- » Whisper quiet sound levels, down to 19 dB(A)
- » Wide operating range: 14 to 115°F for cooling and -13 to 75°F for heating
- » Wireless controller as standard
- » Can be controlled remotely with the Daikin Comfort Control App**
- » Titanium apatite photo-catalytic air purification filter

* Complete warranty details available from your local dealer/contractor or at www.daikincomfort.com. To receive the 12-Year Parts Limited Warranty, online registration must be completed within 60 days of installation. Online registration is not required in California or Quebec.

** Requires purchase and installation of adapter (BRP072A43).

Year round Comfort

Daikin *EMURA*™ is a highly intelligent system with innovative features

2-Area Intelligent Eye.

The two-area intelligent eye sensor controls comfort in two ways. If the room is empty for 20 minutes, it changes the set point to start saving energy. As soon as someone enters the room, it immediately returns to the original setting. The intelligent eye also directs air flow away from people in the room to avoid cold drafts.

3-D Airflow.

To ensure a harmonized temperature throughout the room, the Daikin *EMURA* 3D air flow system combines vertical and horizontal auto-swing creating an even distribution of air throughout the room to the corners of even large spaces.

ENERGY STAR® and the **ENERGY STAR**® mark are registered trademarks owned by the U.S. Environmental Protection Agency. **ENERGY STAR**® products are third-party certified by an

EPA-recognized Certification Body. Products that earn the **ENERGY STAR**® prevent greenhouse gas emissions by meeting strict energy efficiency guidelines set by the U.S. Environmental Protection Agency.

Proper sizing and installation of equipment is critical to achieve optimal performance. Split system air conditioners and heat pumps must be matched with appropriate coil components to meet **ENERGY STAR**® criteria. Ask your contractor for details or visit www.energystar.gov.

Comfort Mode.

Draft-free operation improves comfort. When cooling, the flap positions itself horizontally to prevent cold airflow from being blown directly onto the body. When heating, the flap turns vertically downwards to drive warm air to the bottom of the room.

Night Set Mode.

Rapid changes in room temperature can disturb your sleep. To avoid this, Daikin *EMURA* prevents overheating or over-cooling during the night. If the timer is switched on, the unit will automatically set the temperature to 0.9°F warmer in cooling and 3.6°F cooler in heating.

Clean Air.

A sophisticated titanium apatite photo-catalytic air purification filter helps clean the air.

Multi-monitor lamp

The lamp color changes according to the mode of operation.

ADDITIONAL INFORMATION

Before purchasing this appliance, read important information about its estimated annual energy consumption, yearly operating cost, or energy efficiency rating that is available from your retailer.
