

pullout disconnect boxes

Motors & Armatures is pleased to introduce the MARS-2 Brand Disconnect Box. This contractor friendly box features a unique side opening door, allowing easy access to the work area. The powder coated UV rated finish provides superior esthetics and greater longevity. The patented "finger safe" pullout section prevents accidental contact with electrodes. Easy to remove knockouts and a secure locking mechanism are also featured. This Pullout Disconnect Box is the ideal choice for the busy contractor.

specifications:

- Single phase, 240V
- 10,000 Amp Rated
- NEMA 3R, Rainproof
- UL & CUL Rated
